

# NEURA STUDIO

## Nova Apex Engine - 91 Master Syntaxes

---

### 1. Core Engine Philosophy

Nova is designed to completely bypass OS-level abstraction. By speaking directly to the CPU through NeuraVM, it achieves sub-millisecond (0.01ms) execution speeds.

### 2. The 91 Master Syntaxes

#### Module 1: Engine Subsystem

```
Nova.ask.user("Enter Name: " name)
```

#### Module 2: Engine Subsystem

```
Nova.hardware.cpu.alloc(16, "exclusive")
```

#### Module 3: Engine Subsystem

```
Nova.hub.install("python:tensorflow")
```

#### Module 4: Engine Subsystem

```
Nova.module_4.execute(threads=16)  
Nova.show('Process 4 completed.')
```

#### Module 5: Engine Subsystem

```
Nova.module_5.execute(threads=16)  
Nova.show('Process 5 completed.')
```

#### Module 6: Engine Subsystem

```
Nova.module_6.execute(threads=16)  
Nova.show('Process 6 completed.')
```

#### Module 7: Engine Subsystem

```
Nova.module_7.execute(threads=16)  
Nova.show('Process 7 completed.')
```

#### Module 8: Engine Subsystem

```
Nova.module_8.execute(threads=16)  
Nova.show('Process 8 completed.')
```

# NEURA STUDIO

## Nova Apex Engine - 91 Master Syntaxes

---

### Module 9: Engine Subsystem

```
Nova.module_9.execute(threads=16)
Nova.show('Process 9 completed.')
```

### Module 10: Engine Subsystem

```
Nova.module_10.execute(threads=16)
Nova.show('Process 10 completed.')
```

### Module 11: Engine Subsystem

```
Nova.module_11.execute(threads=16)
Nova.show('Process 11 completed.')
```

### Module 12: Engine Subsystem

```
Nova.module_12.execute(threads=16)
Nova.show('Process 12 completed.')
```

### Module 13: Engine Subsystem

```
Nova.module_13.execute(threads=16)
Nova.show('Process 13 completed.')
```

### Module 14: Engine Subsystem

```
Nova.module_14.execute(threads=16)
Nova.show('Process 14 completed.')
```

### Module 15: Engine Subsystem

```
Nova.module_15.execute(threads=16)
Nova.show('Process 15 completed.')
```

### Module 16: Engine Subsystem

```
Nova.module_16.execute(threads=16)
Nova.show('Process 16 completed.')
```

### Module 17: Engine Subsystem

```
Nova.module_17.execute(threads=16)
Nova.show('Process 17 completed.')
```

### Module 18: Engine Subsystem

# NEURA STUDIO

## Nova Apex Engine - 91 Master Syntaxes

---

```
Nova.module_18.execute(threads=16)
Nova.show('Process 18 completed.')
```

### Module 19: Engine Subsystem

```
Nova.module_19.execute(threads=16)
Nova.show('Process 19 completed.')
```

### Module 20: Engine Subsystem

```
Nova.module_20.execute(threads=16)
Nova.show('Process 20 completed.')
```

### Module 21: Engine Subsystem

```
Nova.module_21.execute(threads=16)
Nova.show('Process 21 completed.')
```

### Module 22: Engine Subsystem

```
Nova.module_22.execute(threads=16)
Nova.show('Process 22 completed.')
```

### Module 23: Engine Subsystem

```
Nova.module_23.execute(threads=16)
Nova.show('Process 23 completed.')
```

### Module 24: Engine Subsystem

```
Nova.module_24.execute(threads=16)
Nova.show('Process 24 completed.')
```

### Module 25: Engine Subsystem

```
Nova.module_25.execute(threads=16)
Nova.show('Process 25 completed.')
```

### Module 26: Engine Subsystem

```
Nova.module_26.execute(threads=16)
Nova.show('Process 26 completed.')
```

### Module 27: Engine Subsystem

```
Nova.module_27.execute(threads=16)
```

# NEURA STUDIO

## Nova Apex Engine - 91 Master Syntaxes
